

We are glad to note that **William A. Ashmead**, who has been spending the winter in Florida, has returned. He reports a cool, damp winter there; says he saw ice half inch in thickness, but states that the weather was quite warm when he left, the therm meter being somewhere in the nineties. He brought with him some very fine oranges, which we had the good fortune to test, and can vouch for their good quality.

W.

# Cumberland Orphans' Court.
